Text 5.5.13 is a maintenance release that rolls up 4 bugfixes for [iText 5 Core](#) from the past 5 months:

- As of this release XFA Worker is no longer supported on .NET 2.0 - instead you need to use .NET 4.0.
- Support has been added for License Key Library 3.0.1. Users on License Key Library 1.0.x should migrate to 3.0.1.
- 3 bugfixes for iText 5 Core 5.5.13.
- 1 bugfix for [XFA Worker](#) 5.5.13 (commercial add-on, not on GitHub).  
Please be informed that at the same time we release [pdfXFA](#) 1.0.3, an add-on for iText 7. All bugfixes for XFA Worker 5.5.13 were ported to pdfXFA 1.0.3.

No new functionality has been added since [5.5.11](#).

The full list of changes can be found in the [changelogs](#) and the release in our download hub for [Java](#) and [.NET](#).

iText 5.5.12 for .NET (also known as iTextSharp) can be installed using NuGet.

## Package Manager:

```
Install-Package iTextSharp
Install-Package itextsharp.pdfa
Install-Package itextsharp.xtra
Install-Package itextsharp.xmlworker
Install-Package itextsharp.xfaworker
```

## .NET CLI:

```
dotnet add package iTextSharp
dotnet add package itextsharp.pdfa
dotnet add package itextsharp.xtra
dotnet add package itextsharp.xmlworker
dotnet add package itextsharp.xfaworker
```

Still questions about the release, don't hesitate to [contact us](#).
